

Emerging Issues: Residential PACE Loans and Bankruptcy

Feb 08 2018

Posted By: David I. Cisar

Practice Area: Government Finance & Restructuring and Insolvency

As the drumbeat to improve energy efficiency grows louder by the day, "green" improvements like solar panels and more-efficient HVAC systems are more desired and prevalent than ever. Starting with California in 2008, 33 states and the District of Columbia have enacted laws authorizing Property Assessed Clean Energy (PACE) loans to finance these improvements. [Read more...](#)
